As a member of a Private Medical Scheme, you would expect that an event in-hospital would be covered in full, this is not so.

Most Medical Schemes will cover in-hospital expenses defined as services rendered by a Medical Practitioner at the Medical Scheme rate. However, most Specialists today are charging rates that are substantially higher than the Medical Scheme rates and you, as the member are liable for the difference, this is known as the tariff gap.

2020 Product Range

Ambledown Gap Select is an Insurance Product that provides cover for you and your immediate family for the shortfall (Gap) resulting from any Medical Practitioner charging above the Medical Aid Tariff for in-hospital surgical procedures and certain out of hospital procedures. The insured will receive a benefit equivalent to the costs incurred as a result of the Gap for any hospital admission as an in-patient. The Gap is defined as services rendered by a Medical Practitioner who charges above the Medical Scheme tariff.

Ambledown Gap Select is an offering that combines all of the following benefits, ie:

Gap Cover 100

Gap Cover 100 provides for charges levied by the Medical Services Professionals above the Medical Scheme Tariff for associated services in-hospital and/or the necessity for chemotherapy or radiotherapy for the treatment of Cancer on an out-patient basis, and/or the necessity for kidney dialysis on an out-patient basis;

Limited to 5 times the Medical Scheme Tariff less the higher of the Medical Scheme Tariff or the Medical Scheme Option Reimbursement Rate.

We remind you that the Gap Cover 100 does not provide for charges above the tariff for the hospital costs or for additional costs of prosthesis, materials and medication. Cover is for the services provided by Specialists, General Practitioners and Medical Professionals such as Physiotherapists during the period of hospitalisation.

Major Medical Co-payment / Deductible Cover

Major Medical Co-payment / Deductible Cover provides for charges in the form of a co-payment or deductible applied for in-hospital admissions and charges in the form of a co-payment or deductible for major medical outpatient treatment limited to specialised diagnostic radiology limited to MRI, CT and PET Scans.

Co-Payment is a procedure specific upfront payment charged by the Medical Aid Scheme payable to the Medical Services Provider prior to undergoing the procedure. The co-payment or deductible amounts applied are as per the rules of the patient's registered Medical Scheme.

The benefit includes a once-off payment per family, per annum for the penalty imposed by a medical scheme for the use of a non-network hospital. The benefit is limited to R10 000.

Sub-limitation Cover

Sub-limitation Cover covers the charges above any sub-limitation imposed by the Medical Scheme for in-hospital admissions.

Sub-limits are limits set by the Medical Aid Scheme on Medical Aid benefits. In certain instances these limits can be set per procedure type in an effort to manage exposure.

Cancer Cover

Cancer Cover provides for charges related to Cancer treatment in a private institution subject to the Medical Scheme rules in the form of a co-payment or deductible applied after the sub-limitation imposed by the Medical Scheme for Cancer treatment and;

provides for charges after the sub-limitation imposed by the Medical Scheme for defined biological Cancer drugs for defined oncological conditions and/or specific sub-groups of Cancer.

This benefit provides for Cancer treatment in a private facility where a cost incurred exceeds the R200,000 threshold in respect of biological and/or traditional Cancer treatment. Treatment includes in-hospital expenses, chemicals, medication and outpatient radiotherapy or chemotherapy however treatment excludes the cost of specialist's consultations.

Casualty Ward Benefit

Casualty Ward Benefit covers you for treatment received in a casualty unit of a hospital provided that such treatment is not for routine physical treatment or any other medical examination or treatment other than emergency medical treatment.

You are covered when immediate treatment is required and your Medical Scheme does not provide you with cover and you become liable to pay the cost of the casualty event. This benefit will cover the facility fee, consultations, medications, radiology and pathology associated with admission to a registered hospital's casualty facility.

- **Treatment in a casualty unit of a hospital is subject to a specific limitation of R10,000 per insured person per annum**

"Emergency" means the sudden and at the time, unexpected onset of a health condition that requires immediate medical treatment and/or an operation. If the treatment is not available, the emergency could result in weakened bodily functions, serious and lasting damage to organs, limbs or other body parts, or death. The determination of an emergency will be done through diagnosis (through classification by the attending Medical Practitioner and / or the Casualty Unit) and not on symptoms presented. The Medical Practitioner that treated you and / or the Casualty Unit that you have been treated in should use the correct codes and classification on the invoices they send to you and /or your Medical Aid.

All Gap Cover Benefits above are limited to R165,000 per insured person per annum
